

Hide & Seek the Sleeping Sheep

- Decorate and cut out your green (or any colour you like) sheep. You can colour it in, stick on cotton wool or scraps of material or wool.
- Take turns hiding your sheep in your house or garden.
- Give clues to its hidden location, such as:
My sheep is asleep near something red.
My sheep is asleep under something loud.
- You could simply say hot/warm/cool/cold to give the person seeking an idea of how near they are to the sleeping sheep.
